

A. Shrinkage frequency by size class

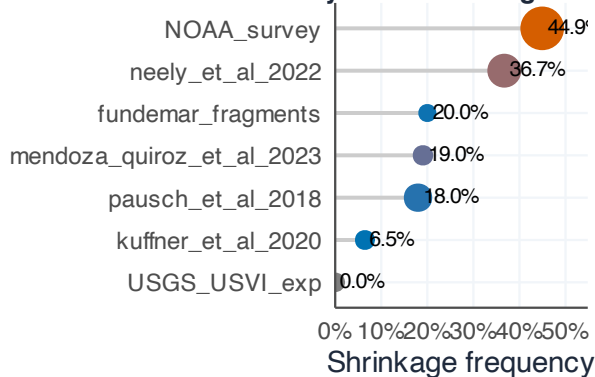

B. Mean tissue loss among shrinking colonies

Retrogression, stasis, and growth from observed transitions

D. Study-level shrinkage frequency

Observed transitions: Retrogression (orange), Stasis (grey), Growth (dark blue). Mean loss (cm² yr⁻¹) color scale: 500 (blue) to 1500 (orange). Records: 1000 (large black circle), 200 (small black circle).
